**P.T.O.**

### **Project Done in College :**

**Project Name :** Employee Management System.

**Description:** Employee Management System is an web-application program, which is focused on better maintenance of the employees in any software organization. Through this program, we can maintain the daily curriculum of the employees, their personal and official details, and regulate their work procedure in a secure and compact way.

**Framework used :** *Front-end - J2EE , Back-end - Microsoft Access.*

### **Industrial Training:**

As a part of the curriculum of the B.Tech course, completed an industrial training at the end of the 3<sup>rd</sup> year , from DPS Technologies India Pvt.Ltd.

The training included basic training on Linux OS, building three tier Java based Web applications using Eclipse IDE, and deploying it on IBM Websphere Application Server with MySQL RDBMS and Unit Tests with Junit.
