- Software Development through C language with more than 22+ months of experience.
- Experience on programming through Assembly Language, C++ and GCC.
- Experience on working with Windows and Linux.

Work Experience:

1) IGNOU Programme Study Centre (Since February 2003 – Till date)

Organization Detail:

IGNOU Programme Study Centre is a training and distant learning institute which offers various Computer and Non-Computer courses to cater the need of professionals from various streams.

Position Held: Lab Assistant/Machine Room Operator.

Job profile: Assisting Academic Counselors in the laboratory.

2) Indian Statistical Institute, Kolkata. CVPR Department. (January 2007 to January 2009)

Position Held: Trainee Project Associate.

Job profile: Building a News Text corpus, analyzing the corpus and Indexing the corpus. Developing the Indexer and various tools required for building and analyzing the corpus.

Projects Undertaken:

1) Indian Statistical Institute, Kolkata. CVPR Department. (January 2007 to January 2009)

Project Title: Indexing and Statistical Analyzing of a News Text Corpus.

Project Detail: The objective of the project is to create language resources for indexing and searching unstructured English texts. Studying the nature of news documents and their behavior in a text search engine. And to perform various statistical text analysis on the News corpus created in this project.

The project consists of the following modules:

- a) Crawling the web for gathering news documents.
- b) Cleaning the html codes, unnecessary spaces, newlines and text (like advertisements) from the gathered webpages.
- c) Formatting the web pages in TREC format.
- d) Statistical Analysis of the corpus.
- e) Indexing or Vectorization of the documents.

The indexer and all required tools were developed through C language. Most of the coding was done following the ANSI standard for easy porting. The VC++ IDE was used. All programs were written as Win32 Console Application.

OS: Windows.
Language: C.
Position Role: Developing the Indexer and tools required for building the corpus and analyzing the corpus.
